Hits: 970 C. Ratio: ~9% Bytes: 5.7 MB

Total for all Galleries:

Hits: 167823
C. Ratio: ~29%
Bytes: 2.44 GB

Stats details:

Stats have changed, and they're both more accurate and more useful. Now they include nearly every image view, including times where people go back and look at the same image a few different times. So you can truly see which photos are being seen most often, instead of which ones were simply being cached and thus not tracked.
